Coláiste Iósaef 2021-2022

Putting the Student First: A School Responds Plan

Definition

‘An incident or any sequence of events which overwhelms the normal coping mechanism of the school and disrupts the running of the school’

LCETB Manual (2019)

Crisis

Definition:

‘A school crisis is a temporary event or condition that effects a school, causing individuals to experience fear, helplessness, shock, and / or horror. A school crisis requires extraordinary actions to restore a sense of psychological and physical security. The origin of the crisis need not be school – based; outside incidents and conditions also can create a school crisis’

(Kerr & King, 2018)

Key Features of a School Crisis

- An unexpected disruption to a school’s normal routine
- Resulting psychological distress
- The unpredictable need for actions that exceed a school’s customary response

(Boin & Kuipers, 2018)

Critical Incidents Affecting Schools

- The death of a member of the school community through accident, violence, suicide or suspected suicide or other unexpected death.
- An intrusion into the school e.g. violent intruder, bomb alert etc.
- An accident involving members of the school community.
- An accident or tragedy in the wider community.
- A physical attack on a staff member/ student.
- Death or injury of a student or staff member on a school outing.
- Severe injury to a student or staff member as a result of a road traffic accident/ farm accident
- Serious damage to the school by fire/ flood/ vandalism etc.
- Disappearance of a member of the school community.

Five Phases of School Crisis Preparedness in Coláiste Iósaef

Five Phases of School Crisis Preparedness

Prevention:

A focus on prevention will help to eliminate or reduce the likelihood or the occurrence of Critical Incidents and will ensure risks associated with both on-site and off-site activities are addressed. Risks can be limited by: -

- Student Support Team (SST) weekly meetings for Junior and Senior Cycle
- An SST list is made available weekly on a secure school platform for staff to review.
- Identify on-site and off-site situations that have the potential to become emergencies or critical incidents
- Assessing and monitoring the level of risk associated with each situation
- Implementing appropriate risk mitigation strategies including Student/ Learner care plan for students experiencing stress

Protection:

A focus on securing the school against Critical Incidents:

- Implementing on-going actions that protect students/ staff/parents/guardians and property from a threat or hazard

Mitigation:

A focus on eliminating/ reducing the loss of life and property damage:

- By lessening the impact of an event or emergency

Response:

A focus on response will ensure that the school and the LCETB assesses and responds appropriately to a particular critical incident:

- In accordance with the actions outlined in the Critical Incident Management Plan
- As well as tailoring the nature and level of response to the Critical Incident, the Principal will also modify the responses in collaboration with the Student Support Team, as situations change, recognising the varying needs of students and staff.

Recovery:

A focus on recovery requires the Principal to take appropriate actions to return the school to normal routine as soon as possible by:

- In collaboration with the Student Support Team develop and implement strategies to identify and manage the on-going social and psychological needs and the educational needs of those affected by the incident.
- Organise a debriefing, psychological and operational as appropriate, to evaluate the implementation and effectiveness of the Critical Incident Management Plan and to update records and documentation associated with the management and outcome of the Critical Incident. Psychological debriefing will be facilitated, if required by personnel trained in the Critical Incident debriefing.

A Model for School Support, Crisis Prevention & Intervention

Teachers: A Core Resource

School Teachers are in a unique profession to actively promote student wellbeing and welfare for the following reasons:

- Close continuous daily contact with students which inevitably include those under stress, who are abuse victims and or suffering any trauma in his/her life.
- Extensive knowledge of families and students and the community perhaps over many years
- Exposed to key warning signs
- The relationship of trust which develops with students
- Students spend a minimum of three hours a day, five days a week with school staff often during known critical stress periods in the home e.g. post Christmas
- Well placed to note changes in students' appearance, self-esteem, concentration, socialisation, behaviour and progress.
- Research shows that students who live in abusive/ traumatic environments are less able to benefit from learning experiences available to them
- Therefore the identification, support and referral when appropriate of children under stress is a vital role for all school personnel.

Student Support

Definitions, Signs & Indicators

Definition of 'at risk':

A student is considered to be '*at risk*' when his or her ability to cope with the psychological pain generated by his/her perception of difficulties or issues becomes so intense that the student becomes disconnected from his/her support system and ability to solve problems. The focus of his/her life becomes ridding him/herself of the psychological pain.

- Individual
- Behavioural
- Family
- Environmental/ Social

Responding to a Concern

- ✓ Treat all disclosures in an informed, sensitive and professional manner
- ✓ Observe what is said and the behaviour of the student
- ✓ Stop and Listen. Allow the student to talk without prompting, do not rush the student.
- ✓ Give him/her time and space including physical space.
- ✓ Stay in control and remain calm.
- ✓ Take all disclosures seriously.
- ✓ Never make a promise.
- ✓ Do not ask leading questions.
- ✓ Be honest and do not promise what you cannot deliver in your professional capacity.

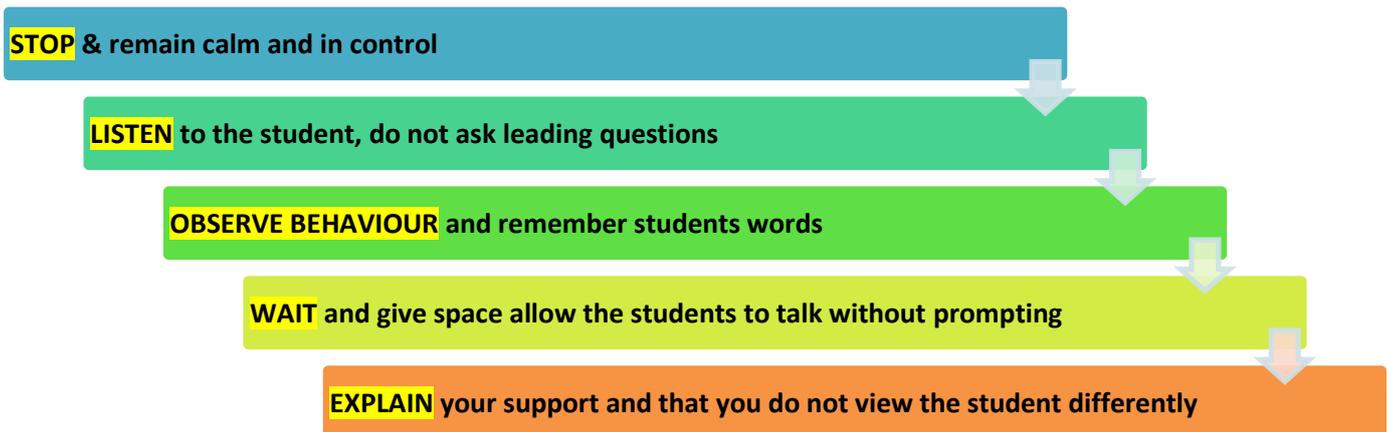

- ✓ Make notes of dates and details immediately after including the exact words.
- ✓ **Consult with DLP/DDLP (immediately if necessary) or if appropriate bring to the attention of the Student Support Team as soon as possible.**
- ✓ Maintain confidentiality on a ‘need to know’ basis.

It is important that a student feels reassured after disclosing a concern, reassure the student that you are here and will see them when at school.....

- ✓ “What you are saying is important and I will treat it as such”
- ✓ “Its not your fault”
- ✓ “I’m glad you were able to tell me”
- ✓ “I will help you as best I can”
- ✓ “This is important I need to talk to someone about it”

All school personnel are required to be aware of the School Child Safeguarding Statement and their responsibilities under the Children First Act 2015.

Responding to a Concern: Slower Steps

Critical Response Planning

Crisis Response: Why Plan

- ✓ The aftermath of a crisis needs to be carefully managed and not left to unfold
- ✓ An incident like this will test the school to its limits
- ✓ It is very easy to feel deskilled, a plan gives focus
- ✓ A policy ensures that you are operating from a sound base
- ✓ More likely to meet critical areas of need if there is a plan
- ✓ Helps school to remain in control, calm and reassured.

Crisis Response: Aim

- ✓ To commemorate the deceased who shared an important part of his/her life with the school
- ✓ To support and reduce the impact and distress of school community
- ✓ To minimise the risk of follow on as a result of a high risk incident/s

What Type of Response is Needed?

Response Level 1: the death of a student or staff member who was terminally ill; the death of parent/sibling; a fire in school not resulting in serious injury; serious damage to school property.

Response Level 2: the sudden death of a student or staff member. (NEPS)

Response Level 3: an accident/ event involving a number of students; a violent death; an incident with a high media profile or involving a number of schools. (NEPS)

In the Event of a Critical Incident

- ✓ Control of the situation devolves to the Critical Incident Team (aka the SST)
- ✓ All staff go immediately to class.
- ✓ No students are to be allowed to leave class.
- ✓ The team will meet and free staff will be required to substitute for those in the meeting.
- ✓ Year Heads to identify any vulnerable students as soon as possible.

9. Are our premises and equipment safe?
10. Do we have a policy with clear and workable reporting procedures? If so, are parents, students and staff aware of it?
11. Do we have policies on positive behaviour management, bullying, code of practice, child protection, inclusion etc?

Critical Incidents During State Exams

In the event of the death of someone close to a student sitting state exams, the following procedures should be put into action in addition to the above:

1. Ring SEC to alert the Exam Manager for your school.
2. In the event of the death of a parent/family member, senior management may visit the student's family to determine if it is appropriate for the student to be encouraged to finish their exams (LC only).
3. If desired by the affected student, a separate exam centre should be assigned with staff to manage it. With the agreement of the Exam Manager, a student may be given extra time during their exams.
4. If the student would prefer to return to the main exam centre, the student should be informed of her return and given support and advice on how best to support their classmate.
5. In the event of the death of a student before or during their state exams, normal procedures should be put in place regarding response to a death during term time.
6. If it is deemed necessary, a separate exam centre can be set up to accommodate students who have been particularly affected by the loss of a close friend.
7. Students who are particularly affected by any of the above may be spoken to separately after exams (with the agreement of parents); remaining students could be addressed in a group after the exams.
